

Geography

B.A.Part I

First Semester

DC-I 140107 /AC-I 170107

Title- Physical Geography

Objectives-

- 1) To introduce the students the basic concepts in physical geography.
- 2) To understand concept of movement of the earth.
- 3) To understand nature of theories in physical geography.
- 4) To make the students aware of application and utility

Sr.No.	TOPIC	Sub. Topic	Periods	MARKS
1	Introduction of Physical geography	i) Meaning, nature and scope ii) Branches of geography	12	25
2	Imaginary lines and movement of the earth	i) Earth latitude & longitude, axis of the earth, parallels of latitudes, meridians of longitudes ii)Rotation and its effects-inequality of day and night ii)Seasons iii)Determination of Tropic of cancer, Tropic of Capricorn and polar circles	16	25
3	Origin of the earth	i)Earth origin and development- Kant, laplas, james & jeans, big bang theory ii)Interior of the earth	16	25
4	Crustal Movements	a)Concept of crustal movement i)Continental Drift theory ii)Plate tectonic theory b)Aplication of physical geography	16	25

Geography
B. A. Part I
First Semester
DC – II 140207
Title – Human Geography

Objectives :-

1. To acquaint the students with the nature of man – environment relationship
2. To acquire knowledge about world population distribution and migration
3. To understand the human adaptation to different environmental conditions from primitive to modern lifestyles.

Credits : 4

Marks : 100

Periods : 60

Sr. No	Topic	Sub-Topic	No. of Lecture Assigned	Marks Assigned
1	Introduction	Nature and Scope of human geography its relation with Physical Geography.	15	25
2	Man and Environmental relationship	Concept of physical and cultural environments, study of environmentalism, Determinism, Possibilism stop and go concept.	15	25
3	Population	A] Distribution of population – world pattern. Population Density. Factors affecting Distribution. B] Migration – Types causes and effects.	23	25
4	Study of Tribal communities	Geographical factors affecting life patterns of following Tribal communities. Study of pigmy, Eskimos and Kyrgyz . Tribes of India – Bhills, Nagas, Mahadev Koli.	07	25

Semester II

DC-III 240307 /AC-II 270207

Title - Geomorphology

Objectives-

- 1) To introduce the students the basic concepts in Geomorphology.
- 2) To understand various geomorphic processes
- 3) To study the nature and technique of landform developments.

Sr.No.	Topic	Sub. Topic	Periods	Marks
1	Nature and scope of Geomorphology	i) Defination, nature and scope of geomorphology ii)Branches in Geomorphology iii) I,II,III order relief & landforms iv) application of geomorphology	12	25
2	Geomorphic Processes	i)Concept of endogenic & exogenic processes ii) Weathering and Mass movements iii) Volcanoes & Earthquakes	16	25
3	Concepts of Erosion, Transportation & Deposition	i)Concept of grade ii) Concept of erosion iii) concept of transportation iv) concept of deposition	16	25
4	Resultants landforms of various agents	i)Running water ii)Sea waves iii) Wind	16	25

SEMESTER II

DC IV 240407

Title - Settlement Geography

Objectives :-

1. To acquaint the students with the spatial and structural characteristics of human settlements.
2. To study the spatial issues related to urban and rural settlements.
3. To equipped students careers various urban/rural agencies
4. To develop awareness about urban problems.

Credit : 4

Marks : 100

Periods : 60

Sr. No	Topic	Sub-Topic	No. of Lecture Assigned	Marks Assigned
1	Introduction	Nature and scope of the settlement geography.	15	25
2	Site and situation of Rural Settlement	Types of rural settlements, Building material and house types in India. Structure of a Indian village, Rural landuse- VonThuen,s model	15	25
3	Rural and Urban settlement	Rural and Urban settlement Demographic, social and economic difference of rural and urban settlements Definition of town, Hierarchy of urban settlements Functional classification of towns.	15	25
4	Urban Morphology	C. B. D. and other functional zones, Suburbs and Rural urban fringe, Christller's Central place theory, Urban problems	15	25
